Work: (505) 582-2616, Cell: (505) 301-8980

## OBJECTIVE

Solution-driven web developer excelling in a highly collaborative or solo work environment, finding solutions to challenges and focuses on client satisfaction with an eagerness to learn about new technologies and programming languages.

Proven experience with writing APIs and building a database using PHP and MySQL. Also proven experience with JavaScript, and React.js framework using Redux for state management and Axios to make http request to written APIs that communicates with the database.

Experienced in building products for desktop and mobile responsiveness, meeting the highest quality standards for web design, user experience, best practices, usability and meeting deadlines.

Translating solutions into code and working across many different APIs, third-party integrations and databases in SQL.

Experienced with hosting domains using Docker and Docker containerization.

Working with developers that are passionate about technology and want to integrate new ways of developing software.

- MySQL
- Python
- PHP
- Docker Hosting
- JavaScript
- Unit Testing
- React.js and React-Native
- HTML and CSS
- Version Control with Git
- Writing RESTful APIS
- WordPress
- Folium, Leaflet, and Pandas Libraries

## EDUCATION

**Deep Dive Bootcamp Fullstack Certificate** ✓

**CNM Ingenuity (October 2019 – December 2019)**

This cohort consisted of 10 weeks to create a web application in collaboration with a group of other cohort classmates using technologies such as PHP, MySQL, RESTful APIs, React.js, JQuery libraries. We also had to create our own personal website during this 10-week period with on-going assignments and assessments to prove our skills.

**High School GED** ✓

## EXPERIENCE

- **Top 7 finalist out of 120 contestants in the Annual UNM/CNM App Contest**
- **Coding Mentor** – CNM Ingenuity, February - Current
- [FBvsTweet.xyz](#) – **Technologies:** Python with Folium, Leaflet, and Pandas Libraries, manipulated HTML5 and CSS3. Used Data Science workflows for processing large data.
- [Abqcookbook.com](#) – [GitHub Repository](#) **Technologies:** PHP, MySQL, REST APIs, React.js, Javascript, Docker, Agile Project Management tools – Slack, Asana, Git
- [GutterNM.com](#) – **Contractor** in developing website for **Estrada Development, LLC.**  
**Technologies used:**  
*WordPress, Elementor, Contact Form 7, One-click data import for theming, HTML5, CSS3, PHP, MySQL and Adobe Photoshop for editing company logo.*
